## INGRESS

Born on the 25th January 1998 in Katrineholm Sweden, moved to Nyköping during 2014 to study Elite Orienteering and Media & Information Technology.

In 2015 I co-founded the Biocaching project(learned Norwegian by the way), got involved with the Wikimedia movement, as a result of my past work with open data.

Making applications for crowd-sourcing is a daily hobby just as orienteering and maps.

## EXPERIENCE
